**WITHOUT PREJUDICE**

5<sup>th</sup> January 2006

Tracey Patterson  
Manager Treasury Department (Acting)  
The University of New South Wales

Dear Madam,

**Re: Allegation of Overdue Payment**

I refer to your 'Letter of Demand' dated 16<sup>th</sup> December 2005 requesting payment of the sum of \$398.10.

The University is not entitled to this payment. The University has not provided me with a supervisor for the period this alleged debt applies. The University's physics professors have effectively expelled me as long ago as May 2005, and for months prior to that effectively abandoned their obligations to me as a PhD candidate, simply because my scientific research invalidates theoretically, the black hole and the big bang, upsetting their precious applecart. I refer you to Dr. David Cohen, Presiding Member, Faculty of Science, for details concerning my complaints, which he has apparently chosen to dismiss summarily for no legitimate reason, and to Professors Couch, Gal, Hamer and Webb of the School of Physics. Hamer made a written report on my work to Couch and Gal, and either deliberately or through gross incompetence altered my research, misrepresented my scientific work, and recommended that I be prevented from submitting my PhD thesis. I have his report, which I shall tender in evidence in any legal proceedings the University might unwisely initiate.

I also draw your attention to a false allegation made by Dr. Cohen, in writing, that I rejected Prof. Webb's continued supervision. This is yet another example of how the University's academic personnel improperly conduct themselves, evidently with impunity. It was Webb who irresponsibly and unprofessionally abandoned me, and issued me with an ultimatum, which I rightly rejected. Webb informed me by email that he was not prepared to sign off on my thesis. His behaviour was disgraceful, and pathetic. These events can be confirmed by Gal, if he tells the truth, but I doubt he will, since he has lied to me on several occasions, and attempted to deceive me on others. Also, Mr. Nils Widjaja initially received my written complaints, by email. I suggest that you contact him too.

In addition I remark that Professors Flambaum and Kruchiev have also conducted themselves in a most unprofessional and scientifically inept manner in relation to my work. Webb can confirm that, provided he does not have a convenient lapse of memory, since it was he who reported the response of Flambaum to me, and had me meet briefly with that numbskull Kruchiev.

I am prepared to appear in the courts to expose the University's skulduggery if you attempt to press me for this spurious charge. The only reason why I did not take legal action against the University myself was because I could not be bothered wasting my time with stupid people who are of no consequence, not even in science.

I suggest that you bring this matter to the attention of the Vice Chancellor. However, given the manner in which the University conducts its affairs, I suspect he too will turn a blind eye. The University can think itself lucky that I have not prosecuted.

Yours faithfully,

Stephen J. Crothers.
